

# Sabin Maharjan

Computer Engineer, capable of working with a variety of technology and software solutions. I have been efficiently developing websites and applications using modern HTML, CSS, JavaScript and React as I have handsome experience over it. Still I am always eager to learn a new and make my skill sharper whenever I get any chance.

## WORK EXPERIENCE

### **Charo Digital, —Frontend Developer Intern**

April 2021 to June 2021

Converting Figma design into a website involves translating the visual elements and layout from a Figma design file into HTML5, CSS, and JavaScript code to create an interactive and functional website.

### **Amnil Technology, — Associate Software Engineer**

July 2021 to December 2022

In my previous role as a Front-end (React.js) developer, I developed UIs and apps using React.js and integrated APIs, while also being responsible for testing and deploying the website. I collaborated closely with web designers, back-end engineers, QA engineers, and UI/UX designers to build, design, test, and enhance the web product. I designed web applications based on client requirements and made necessary modifications to meet changing specifications.

### **Javra Software, —Frontend Developer**

January 2023 to Present

As a front-end developer, I developed and implemented complex user interfaces and web applications using advanced frameworks like React.js, collaborated with cross-functional teams to ensure seamless integration and delivered high-quality, scalable solutions.

## EDUCATION

### **Himalaya College of Engineering (2016–2021)**

Bachelor in Computer Engineering

### **National School of Science- NIST,(2014–2016)**

Science ( Physical group)

## FREELANCING PROJECTS

**Load Nepal — [www.loadnepal.com](http://www.loadnepal.com)**

## SKILLS

Strong proficiency in React.js and Typescript

Knowledge of state management libraries like Redux and Context

Familiarity with React Router and integrating RESTful APIs.

Experience in building reusable UI components with React.

## Other Skills

- Angular Js
- Next Js
- Bootstrap & Tailwind
- Node Js(Express)

## LANGUAGES

Nepali, Newari, English, Hindi
